

52 weeks in the shade garden.

There is a lot of information in this presentation and many, many Latin names. Here is a brief synopsis of those plants.

If you have any questions or need advice please contact us via email: contact@mooreandmooreplants.co.uk

Plant name	Period of interest (foliage)	Period of interest (flower)	Soil conditions tolerated (and/or)	Good for pollinating insects
ACTAEA SIMPLEX (ATROPURPUREA GROUP) 'BRUNETTE'	Spring Summer Autumn	Autumn	Moisture retentive soil / Partial shade Clay soil	✓
ACTAEA PACHYPODA	Spring Summer	Spring Early summer	Moisture retentive soil / Partial shade Clay soil	✓
AMSONIA ILLUSTRIS	Spring Summer Autumn	Summer	Moisture retentive soil / Partial shade Clay soil	✓
ANEMONE 'DREAMING SWAN'	Spring Summer Autumn	Late summer Autumn	Moisture retentive soil / Partial shade Clay soil	✓
ARUM 'CHAMELEON'	Winter Spring Autumn	Late spring	Moisture retentive soil / Partial shade Clay soil	
ARUNCUS DIOICUS	Spring Summer Autumn	Late spring Early summer	Moisture retentive soil / Partial shade Clay soil	✓
ASARUM MAXIMUM 'LING LING'	Spring Summer Autumn	Spring	Moisture retentive soil / Partial shade Moisture retentive soil / Full shade Clay soil	
ASPENIUM TRICHOMANES	All year	N/A	Moisture retentive soil / Partial shade Clay soil	
ASTILBE 'EUROPA' (JAPONICA HYBRID)	Spring Summer Autumn	Summer	Moisture retentive soil / Partial shade Clay soil	✓
ASTRANTIA 'BURGUNDY MANOR'	Spring Summer Autumn	Summer	Moisture retentive soil / Partial shade Clay soil	✓
BEGONIA GRANDIS SUBSP. EVANSIANA	Summer Autumn	Late summer Autumn	Moisture retentive soil / Partial shade Clay soil	✓
BISTORTA AMPLEXICAULIS 'ORANGE FIELD'	Summer Autumn	Late summer Autumn		✓
BRUNNERA MACROPHYLLA 'MR MORSE'	Spring Summer	Spring Early summer	Moisture retentive soil / Partial shade Moisture retentive soil / Full shade Clay soil	✓

Plant name	Period of interest (foliage)	Period of interest (flower)	Soil conditions tolerated (and/or)	Good for pollinating insects
BRUNNERA MACROPHYLLA 'LOOKING GLASS'	Spring Summer	Spring Early summer	Moisture retentive soil / Partial shade Moisture retentive soil / Full shade Clay soil	✓
CALAMAGROSTIS BRACHYTRICHA	Spring Summer Autumn	Autumn	Moisture retentive soil / Partial shade Well-drained soil / Partial shade Clay soil	✓
CAREX OSHIMENSIS 'EVERILLO'	All year	Spring	Moisture retentive soil / Partial shade Well-drained soil / Partial shade Clay soil	
CHASMANTHIUM LATIFOLIUM	Spring Summer Autumn	Late summer Autumn	Moisture retentive soil / Partial shade Clay soil	
CONVALLARIA MAJALIS	Spring Summer	Spring	Moisture retentive soil / Partial shade Clay soil	✓
COREOPSIS VERTICILLATA 'MOONBEAM'	Spring Summer Autumn	Summer Autumn	Moisture retentive soil / Partial shade Clay soil	✓
CORYDALIS MALKENSIS	Spring	Spring	Well-drained soil / Partial shade	✓
EUPHORBIA AMYGDALOIDES 'PURPUREA'	All year	Late spring Early summer	Well-drained soil / Partial shade Well-drained soil / Full shade Clay soil	✓
EUPHORBIA AMYGDALOIDES VAR. ROBBIAE	All year	Late spring Early summer	Well-drained soil / Partial shade Well-drained soil / Full shade Clay soil	✓
EURYBIA DIVARICATA	Spring Summer Autumn	Summer Autumn	Moisture retentive soil / Partial shade Well-drained soil / Partial shade Clay soil	✓
EUTROCHIUM MACULATUM ATROPURPUREUM GROUP SYN. EUPATORIUM	Spring Summer Autumn	Summer Early autumn	Moisture retentive soil / Partial shade Clay soil	✓
GALANTHUS NIVALIS	Winter Spring (Dormant by summer)	Winter Spring	Moisture retentive soil / Partial shade Moisture retentive soil / Full shade Clay soil	✓

Plant name	Period of interest (foliage)	Period of interest (flower)	Soil conditions tolerated (and/or)	Good for pollinating insects
GERANIUM PHAEUM 'WENDY'S BLUSH'	Spring Summer Autumn	Late spring Early summer	Moisture retentive soil / Partial shade Well-drained soil / Partial shade Moisture retentive soil / Full shade Well-drained soil / Full shade Clay soil	✓
GEUM 'NONNA'	Spring Summer Autumn	Late spring Early summer	Moisture retentive soil / Partial shade Clay soil	✓
GILLENIA TRIFOLIATA	Spring Summer Autumn	Summer	Moisture retentive soil / Partial shade Clay soil	✓
HACKONECHLOA MACRA 'NAOMI'	Spring Summer Autumn	Late summer Autumn	Moisture retentive soil / Partial shade Moisture retentive soil / Full shade Clay soil	
HAKONECHLOA MACRA 'AUREOLA'	Spring Summer Autumn	Late summer Autumn	Moisture retentive soil / Partial shade Moisture retentive soil / Full shade Clay soil	
HELLEBORUS X HYBRIDUS	Spring Summer Autumn	Late winter Spring	Moisture retentive soil / Partial shade Moisture retentive soil / Full shade Clay soil	✓
KIRENGESHOMA PALMATA	Spring Summer Autumn	Late summer Autumn	Moisture retentive soil / Partial shade Clay soil	✓
LAMIUM ORVALA	Spring Summer Autumn	Spring Early Summer	Moisture retentive soil / Partial shade Well-drained soil / Partial shade Clay soil	✓
LIRIOPE MUSCARI 'OKINA'	All year	Late summer Autumn	Moisture retentive soil / Partial shade Clay soil	✓
LIRIOPE MUSCARI 'KINDI PINK'	All year	Late summer Autumn	Moisture retentive soil / Partial shade Clay soil	✓
LYSIMACHIA CLETHROIDES	Spring Summer Autumn	Summer	Moisture retentive soil / Partial shade Clay soil	✓
NEPETA GOVANIANA	Spring Summer Autumn	Late summer Autumn	Moisture retentive soil / Partial shade Well-drained soil / Partial shade Clay soil	✓
NEPETA SUBSESSILIS	Spring Summer Autumn	Summer	Moisture retentive soil / Partial shade Clay soil	✓

Plant name	Period of interest (foliage)	Period of interest (flower)	Soil conditions tolerated (and/or)	Good for pollinating insects
OMPHALODES CAPPADOCICA 'STARRY EYES'	Spring Summer	Spring	Moisture retentive soil / Partial shade Moisture retentive soil / Full shade Clay soil	✓
PANICUM VIRGATUM 'WARRIOR'	Spring Summer Autumn	Late summer Autumn	Moisture retentive soil / Partial shade Clay soil	
PENSTEMON 'DARK TOWERS'	All year	Summer	Well-drained / Partial shade	✓
PENSTEMON SMALLII	All year	Summer	Well-drained / Partial shade	✓
PERSICARIA 'PURPLE FANTASY'	Spring Summer Autumn	Late Summer Early autumn	Moisture retentive soil / Partial shade Clay soil	✓
PERSICARIA 'SILVER DRAGON'	Spring Summer Autumn	Late Summer Early autumn	Moisture retentive soil / Partial shade Clay soil	✓
POLEMONIUM 'GOLDEN FEATHERS'	All year (if winter is mild)	Late spring Summer	Moisture retentive soil / Partial shade Well-drained soil / Partial shade Clay soil	✓
POLYGONATUM X HYBRIDUM 'BETBERG'	Spring Summer	Spring Early summer	Moisture retentive soil / Partial shade Clay soil	✓
POLYGONATUM X HYBRIDUM 'STRIATUM'	Spring Summer Autumn	Late spring Early summer	Moisture retentive soil / Partial shade Well-drained soil / Partial shade Clay soil	✓
POLYPODIUM INTERJECTUM	All year	N/A	Moisture retentive soil / Partial shade Clay soil	
POLYPODIUM VULGARE	All year	N/A	Moisture retentive soil / Partial shade Clay soil	
PRIMULA VULGARIS SUBSP. SIBTHORPII	Spring Summer Autumn	Winter Spring	Moisture retentive soil / Partial shade Moisture retentive soil / Full shade Clay soil	✓
PULMONARIA 'BLUE ENSIGN'	Spring Summer Autumn	Late winter Spring	Moisture retentive soil / Partial shade Moisture retentive soil / Full shade Clay soil	✓
PULMONARIA 'RASPBERRY SPLASH'	Spring Summer Autumn	Late winter Spring	Moisture retentive soil / Partial shade Moisture retentive soil / Full shade Clay soil	✓

Plant name	Period of interest (foliage)	Period of interest (flower)	Soil conditions tolerated (and/or)	Good for pollinating insects
SANGUISORBA 'BLACKTHORN'	Spring Summer Autumn	Late summer Autumn	Moisture retentive soil / Partial shade Clay soil	✓
SILENE FIMBRIATA	Spring Summer Autumn	Late spring Early summer	Moisture retentive soil / Partial shade Well-drained soil / Partial shade Clay soil	✓
SPIRANTHES 'CHADD'S FORD'	Summer Autumn	Late summer Autumn	Moisture retentive soil / Partial shade Clay soil	✓
THALICTRUM DELAVALI 'HEWITT'S DOUBLE'	Spring Summer Autumn	Summer	Moisture retentive soil / Partial shade Clay soil	✓
TRICYRTIS 'AUTUMN GLOW'	Summer Autumn	Late summer Autumn	Moisture retentive soil / Partial shade Clay soil	✓
TROLLIUS CHINENSIS 'GOLDEN QUEEN'	Spring Summer Autumn	Late spring Early summer	Moisture retentive soil / Partial shade Clay soil	✓
TROLLIUS X CULTORUM 'TALLEGIO' SYN 'CHEDDAR'	Spring Summer Autumn	Late spring Early summer	Moisture retentive soil / Partial shade Clay soil	✓
VANCOUVERIA HEXANDRA	All year (if winter is mild)	Late spring Early summer	Moisture retentive soil / Partial shade Clay soil	✓
